ISO 9001:2015 QMS LEAD AUDITOR ONLINE COURSE

The QMS Lead Auditor course has been designed to help you prepare on-site audits, develop checklists, and audit processes, gather and evaluate evidence, write reports, and relate your findings to policy and objectives. The ISO 9001 (QMS) Lead Auditor course helps individuals learn the knowledge and skills necessary to effectively audit an organization's Quality Management System (QMS) against the ISO 9001 standard.

WHAT WILL I LEARN?

- How to plan, conduct, report, and follow up on the results of audits.
- The roles and responsibilities of an auditor and lead auditor.
- To plan and conduct an interview with top management and evaluate an organization's quality policy and objectives.

- Apply the PDCA methodology using the process approach. Evaluate the documented information required by ISO 9001:2015 and the interrelationships between quality processes, planning, policy, and objectives.
- How to handle different auditing situations and equip you with the ability to apply the right skills to the right context.
- To conduct audits of internal procedures, external standards, and customer requirements, processes, and full systems audits including multi-site situations.
- To report findings accurately against requirements of ISO 9001, write and grade nonconformity reports, and evaluate proposals for corrective action.
